

Turn your bath *into a spa*

Discover the incredible range of new options available in both functional and decorative bathroom products. If you're considering remodeling or building a home, take a trip to the bath showrooms and see these modern trends available to make your bath feel like a spa:

- Vessel basins in translucent glass, stone and metals, set on a base that looks like a piece of elegant furniture.
- Multi-head and steam showers enclosed with glass and equipped with waterproof i-pod ports.
- "Smart" toilets in new shapes with dual-flush systems that are both powerful and conserve water, and some that flush themselves. Toilet seats that lower themselves without a bang.
- Large soaker tubs with light therapy and aqua massage jets; walk-in tubs; and clawfoot tubs with a modern profile.
- Heat coils in the floor that make cold feet a thing of the past.
- Towel warmers to provide you with a toasty warm towel when you step out of the tub.

A spa bath is at the top of the wish list for most homeowners since it can provide a luxurious, relaxing retreat. Large, multi-head and steam showers are part of many bathroom remodels.

- On-demand water heaters that heat water as it's needed, so you never run out, and water isn't being heated when it's not needed.
- Flat panel HD TVs that masquerade as
